CONDITIONS:

1. Payment must be made upon submission of the application.
2. The Municipality accepts no responsibility for the quality or effectiveness of the dust suppressant.
3. The Municipality reserves the right to perform such maintenance procedures as it deems necessary on the treated portions of road infrastructure. Although the Municipality will attempt to minimize any adverse effect of these operations on the treated portion of the roadway, the Municipality will not accept liability for any restoration required.
4. The Municipality will mark the designated area on the road prior to application of product. Please leave the stakes up all summer/fall so the area is always clearly marked. Application is metered and will begin as close to first marker of the designated area as possible.
