For those who have purchased a copy of the *Rossburn Centennial Edition 2013* History book, there is an insert available that updates the information about our "Duke the Bear" statue located in the Memory Park.

On page 365 there is the artist sketch of the bear. The insert fits over the drawing & fills in the blank space below it with photographs and more interesting information. The insert has an adhesive back so no gluing is necessary. You can pick up your free copy of the insert at the Municipal Office.

Louis Riel Day activities. Lots of great Free Public Skating sponsored by the Municipality. The Skating Club put on a fantastic demo and I know their ice show coming up will be thrilling. The adults vs kids game was back and forth even though the adult bench was kinda thin, it still was a great game to watch. Thanks to Jocelyn and her crew for such a yummy special dinner. To our ice staff who have done such a wonderful job keeping things running smooth. Thanks. Also to the Rossburn Curling Club for letting us use the rink for open curling in the afternoon. Thank you!

Rosburn Collegiate Institute

Student Council brought Semester 2 in with a fun Valentine's Spirit Week that included dress up days, Minute to Win It, gym blasts, team competitions and lots of candy. Congratulations to the Green team for showing the most spirit and winning themselves some "sweet" prizes.

Next on Student Council's agenda is a chocolate fundraiser. Members of the council will be selling a variety of peanut and gluten free chocolates for \$3 a treat, so keep an eye out for that and help us contribute to more fun events in our school. As always, the school curling bonspiel will be happening the day before Spring Break!

Semester 2 has also brought some changes to the timetable. Many students are enjoying elective courses such as Digital Pictures, 2D Animation, History through Cinema, Life Works, Cosmetology, Apprenticeship, and Entrepreneurship.

The Grade 12 physics class created a functional catapult as an introduction to our projectile motion unit. The students crafted a catapult out of a large clip and wooden sticks. It successfully launched erasers, rubber stoppers, and a ball of paper across the classroom. During the process of creation, the students made additions to the catapult to make it more functional and easy to use. Well done physics students!

It's not too early to start thinking about "Baseball" here in Rosburn.

There are plans to start a "Think Baseball" committee just as the rink did. So if you would like to be involved in helping to organize the updating of our baseball fields. Please send your name to Martyn in the Rec office.

Rosburns Business of the Month is Hunter Trucking

Hunter Trucking is a family owned and operated business located in Rosburn. Our family moved to Rosburn in the summer of 1969. I worked for several local area companies on road construction while driving my own truck. In 1980, I purchased my first backhoe from local businessman, Mike Chomica. After graduating from Red River Community College in 1994, Brett joined the business as a partner and our company grew to what it is today. Our company provides various aggregates, excavation and snow removal services. Our professional and experienced staff is always ready to assist you with your needs in these areas. We have always been a community centered business. We support many local organizations from individuals to community groups and we are a member of the Chamber of Commerce.
